

THANKSGIVING FAMILY FEUD

The Rules:

- Break into **2 teams** plus **1 leader**
- One member of each team faces the other in a face-off as the leader reads the question off the game board.
- The team that **buzzed in with the correct answer receives control of the board** and has the option of playing or passing control to the other team.
- The team that has the control tries to reveal all of the correct answers to the question before receiving three strikes.
- If the team **receives three strikes** without clearing the board, **control is passed to the other team.**
 - *The team that now has the control is able to give one answer in the hopes that it is found on the board.*
 - ***If it is,** points are added to the team's score.*
 - ***If not,** the other team gets the points.*
- Points are collected as each team finds their answers to the question on the board.
- The team with the most points at the end wins!
